MB981  
LED CEILING LIGHT |  
ÉCLAIRAGE DE PLAFOND À LED |  
LÁMPARA DE TECHO CON LUCES LED

### BATTERY INSTALLATION | MISE EN PLACE DES PILES | INSTALACIÓN DE LAS PILAS

1. Remove the mounting plate from the back of the ceiling light by twisting counterclockwise. Set aside.

2. Insert 4 C-cell batteries into the light. Ensure the batteries are inserted so that the flat ends are making contact with the springs.

3. Optional - for activation with motion, regardless of ambient light or daylight, remove the black sensor next to the battery compartment. Use needle nose pliers to remove the sensor and tape it to the light to keep for future use.

### LIGHT INSTALLATION | INSTALLATION DE LA LAMPE | INSTALACIÓN DE LAS LÁMPARAS

1. Determine the mounting location and mark the pilot holes using a 1/16" drill bit (if mounting to drywall, use the plastic anchors included with the screws). Use a hammer to tap the plastic anchors into the pilot holes, before screwing in the mounting plate.

2. Line up the mounting plate with the pilot holes and drill in the screws.

3. Line up the pull tabs on the battery cover with the slots on the mounting plate and twist the light into place. You should feel the light lock in the bracket.

# WARRANTY | GARANTIE | GARANTÍA

## 1 Year Warranty Against Defects:

All Mr Beams products are guaranteed against defects in workmanship and materials for 1 year from purchase. Warranties implied by law are subject to the same time period limitation. Some states do not allow limitations on how long an implied warranty lasts, so this time limitation may not apply to you. If the product fails due to a manufacturing defect during normal use, return the product and dated sales receipt to the store where purchased for replacement OR send the product and the dated sales receipt to the address below. Not covered – Batteries are not covered by this warranty. Repair service, adjustment and calibration due to misuse, abuse or negligence are not covered by this warranty. Unauthorized service or modification to this product or of any furnished components will void this warranty in its entirety. This warranty does not include reimbursement for inconvenience, installation, setup time, loss of use, postage, unauthorized service, or other products used in conjunction with, but are not supplied by, Wireless Environment. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Garantie d’1 an contre les défauts : tous les produits Mr Beams sont garantis contre les défauts de fabrication et de matériaux pendant une durée d’un an à compter de la date d’achat. Les garanties implicites aux termes de la loi sont sujettes à la même limite de temps. Certains États interdisent les limites de durée des garanties implicites. Par conséquent, cette limite de temps peut ne pas s’appliquer dans votre cas. Si votre produit est défectueux à cause d’un défaut de fabrication, retournez le produit avec le ticket de caisse à la boutique où vous l’avez acheté afin de le remplacer OU envoyez le produit et le ticket de caisse à l’adresse suivante. Hors garantie – Les piles ne sont pas couvertes par cette garantie. Le service de réparation, le réglage et le calibrage suite à une mauvaise utilisation, l’abus ou la négligence ne sont pas couverts par cette garantie. Tout(e) entretien ou modification non autorisé(e) sur ce produit ou sur tout composant fourni annulera cette garantie dans son intégralité. Cette garantie ne comprend pas le remboursement pour désagrément, installation, temps de configuration, perte d’utilisation, affranchissement, entretien non autorisé ou autres produits utilisés mais non fournis par Wireless Environment. Cette garantie vous donne des droits spécifiques. Vous pouvez avoir d’autres droits en fonction de l’État où vous résidez.

## 1 año de garantía frente a defectos:

Todos los productos Mr Beams incluyen una garantía frente a defectos en mano de obra y materiales durante un (1) año a partir de la fecha de compra. Las garantías implícitas por ley están sujetas a la misma limitación de tiempo. Algunos estados no permiten limitaciones en la duración de una garantía implícita. En tal caso, no se aplicará esta limitación de tiempo. Si el producto falla debido a un defecto de fabricación durante un uso normal, devuelva el producto junto con el recibo de compra fechado al establecimiento donde lo adquirió para que le sea sustituido O envíe el producto junto con el recibido de compra fechado a la dirección que se incluye a continuación. Exenciones: esta garantía no incluye las baterías. Esta garantía no cubre el servicio de reparación, ajuste y calibración como consecuencia de un uso inadecuado, abuso o negligencia. Si se repara o modifica sin autorización este producto o algunos de los componentes suministrados, quedará anulada esta garantía en su totalidad. Esta garantía no incluye el reembolso por los inconvenientes, la instalación, el tiempo de configuración, la pérdida de uso, el envío, el servicio no autorizado u otros productos que se utilicen conjuntamente, pero que no hayan sido suministrados por Wireless Environment. Esta garantía le otorga derechos legales específicos y es posible que disfrute de otros derechos que pueden variar de un estado a otro.

# TROUBLESHOOTING | DÉPANNAGE | RESOLUCIÓN DE PROBLEMAS

Problem: Why won’t my light turn off?

Solution: If your light will not turn off, it means it is time to replace the batteries. | Si votre lampe ne s’éteint pas, cela signifie qu’il est temps de remplacer les piles. | Si la luz no se apaga, esto indica que es momento de cambiar las pilas.

Problem: I installed my batteries, but my light won’t turn on.

Solution: Place the light in a dark closet or bathroom and wait 10 minutes. Then enter the room and see if the light turns on with motion.

Problem: Why is my light flashing?

Solution: Flashing can be a sign that the

batteries are low and need to be replaced.

Problem: How high should I mount my light?

Solution: We recommend 8-10 ft high for the

best range of motion detection. Mount the light higher for a broader light beam. Mount the light lower for a smaller, brighter beam.

Problem: Why is my LED light dim?

Solution: If the LED on the light is dim, this

is likely from low battery power. Replace the batteries in the light and see if the issue persists.

Problem: What size drill bit should I use to create pilot holes?

Solution: We recommend 1/16” drill bit.

Problem: What screws should I use?

Solution: For drywall, use the included screws. For wood trim, trees or decks we suggest wood screws. For brick, use a masonry bit.

Problem: Can I use adhesive to mount my light?

Solution: We do not recommend using adhesive

for lights that are heavier than 3 lbs because there is risk of the light falling and becoming damaged.

Problem: What is the black button in the battery compartment for?

Solution: This button is the cap to the light

sensor. When in place, the light will only turn on

when it is dark. If you remove the cap, the light will activate from motion regardless of ambient light.

Problem: I can’t twist the battery cover off of my light to get to the battery compartment.

Solution: We recommend using a rubber grip

that is often used for opening jars.

# WARNINGS | AVERTISSEMENTS | ADVERTENCIAS

Do not mix old and new batteries.

Do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel cadmium)/(nickel metal hydride) batteries.

Do not dispose of batteries in fire.

Ne jetez pas les piles au feu.

No tire las baterías al fuego.

Batteries should be recycled or disposed of as per state and local guidelines.

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

AVERTISSEMENT: Ce produit contient des produits chimiques reconnus par l’État de Californie comme causant le cancer et des anomalies congénitales ou d’autres effets nocifs sur la reproduction.

ADVERTENCIA: Este producto contiene sustancias químicas conocidas en el estado de California como causantes de cáncer y malformaciones congénitas u otros daños reproductivos.

Use only new C-cell batteries with a 1.5v rating.

Install the batteries with polarity in the correct position.
